OpenCode

SPONSORSHIP BROCHURE

OpenCode is a month of opensource where **programmers, designers and innovators** code, design, learn and build solutions that tackle real-world problems.

It acts as a venue for **self-expression, learning** and **creativity** through open source.

It doesn't matter if one is learning to code or is building his 100th app. There are lots of things to learn.
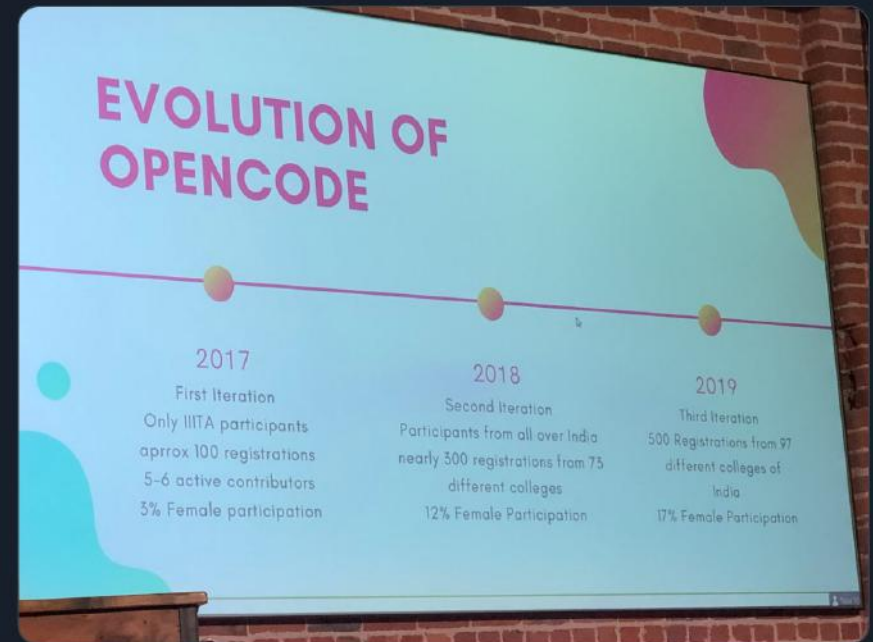

The only constraint is time.

OpenCode 2019 was successfully held from January 15, 2019, to February 15, 2019, with participants from **97 different colleges** with **17% female participation.**

GitHub Education
@GitHubEducation

And now Opencode, which brings together 500 students from **97** different colleges with a boost in female participation #githubeducationday

EVOLUTION OF OPENCODE

2017
First Iteration
Only IIITA participants
aprrox 100 registrations
5-6 active contributors
3% Female participation

2018
Second Iteration
Participants from all over India
nearly 300 registrations from 75 different colleges
12% Female Participation

2019
Third Iteration
500 Registrations from 97 different colleges of India
17% Female Participation

Every year after one month of collaboration, hackers came up with innovative solutions and learned to code.

OpenCode 2019

1600+ Commits

1000+ pull requests

440+ Issues

35+ Projects
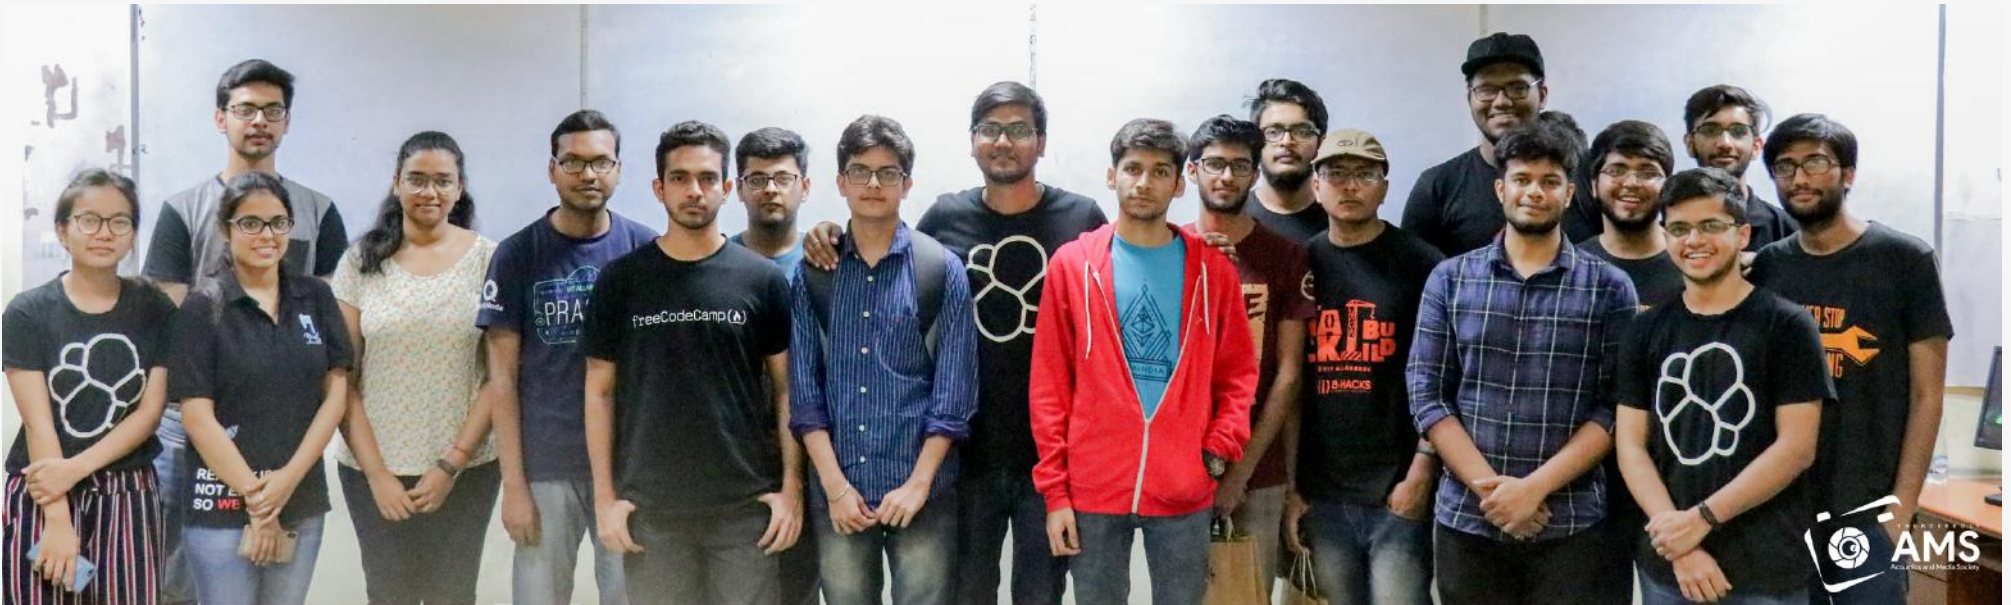

30+ Mentors

500+ participants

Commitment

Over the years we have strived for women to showcase their skills and learn to code in all fairness. From OpenCode 2018 had **special projects only for women**.

Now **17%** of total participants are women. In OpenCode 2020 we pledge to move with the number to **30%.**

Mentors

With over 30 mentors, OpenCode has a wide variety of mentors with different skills who will help the contributors learn and get positive feedback.

Testimonials

The event is great for beginners and experienced students who want to get started with open source development or looking for a challenging contest in the same field.

Anupam Dagar
Opencode17, Top Scorer
Software Engineer at T Systems

It was an amazing experience. Learning and discussing with all might. A journey beyond the ocean world of opensource, where we like a small drop were ready to submerge in those thousands of line of code yet begin our new ride all along with other drops.

Lekhika Dugtal
Opencode19, Girls Winner
Software Intern at Google, Outreach Intern(2019)

People used to take any issue that comes their way, be it something they even haven't heard about. I guess, that's the beauty of OpenCode, it helps us let go of our fear of tackling problems without thinking about whether we can solve them or not.

Opencode18, Overall Winner
Software Intern Gojek

Previous Sponsors

Why Sponsor OpenCode?

1. Social Media Shout Outs

Company will be recognised and promoted as a sponsor via all our social media pages which have a diverse reach in the country.

The company can conduct *online events and promotions* during the event on OpenCode's social media platforms.

Why Sponsor OpenCode?

2. Get Contributors or Hire talent
Open Source companies can use OpenCode as a platform to get **new contributors to their platform**. We have a wide array of talented contributors who after taking baby steps in OpenCode went on to be selected in Google Summer of Coders and Outreachy, to working in companies like Google, Amazon, Microsoft etc. Companies can even give out **open hiring tasks** via OpenCode
